

WAR PATH

HARD SURFACE MULTI - PURPOSE CLEANER

A-343 is a NSF Registered (Category A1) product. It is acceptable for use as a **general cleaner** on all surfaces in and around food processing areas, where its use is not intended for direct food contact.

Nonfood Compounds
Program Listed (A1)
(Registration # 119838)

BENEFITS

- **Cleans surface efficiently.**
- **Acceptable for use on all surfaces in and around food processing areas.**
- **Excellent economics at the recommended dosages.**
- **Can be used on multiple types of surfaces.**
- **Environmental friendly.**

DESCRIPTION

A-343 is a NSF Registered (Category A1) product. It is acceptable for use as a **general cleaner** on all surfaces in and around food processing areas, where its use is not intended for direct food contact.

A-343 is a new multi-phase formula containing inorganic compounds, special surfactants combined with effective solubilizing and dispersing solvents, for removal of stubborn polar soils. It outperforms even hazardous acid, solvents, degreasers and other water soluble degreasers.

DIRECTIONS FOR USE

Use of this product in food processing or handling facilities require that all food products and packaging materials be removed or protected prior to usage. A potable water rinse of cleaned surfaces is required after use of this product.

A-343 can be used as concentrated or diluted. In general, how much to use will depend on the types of soils and the degree of contamination to be removed.

A-343 can be used with normal method of cleaning - brush, mop, spray, swab, soak tank, recirculation or direct injection.

For general cleaning, dilute one part of **A-343** with 30 - 60 parts of water. Apply **A-343** solution on the area to be cleaned until the surface is wet and allow it to work for a few minutes. Then rinse with water or wipe over with a clean and damp cloth.

<u>TYPE OF CLEANING</u>	<u>CONCENTRATION</u>
General Cleaning	The dilution ratios for individual cleaning tasks will vary according to the degree of contamination. The following ratios are recommended for the respective cleaning job specified.
Walls & Woodwork	1 to 2 oz of A-343 per gallon of water.
Carpet & Upholstery	1 part of A-343 to 8 parts of water.
Kitchen & Vents	1 part of A-343 to 6 parts of water.
Shop Floor Maintenance	1 part of A-343 to 20 parts of water.
Machines, Tools & Lathes	1 part of A-343 to 15 parts of water.

SAFETY AND HANDLING INFORMATION

Protective Measures	Wear chemical resistant gloves, safety goggles and footwear. Use in adequately ventilated areas. Wash hands with water after use. Avoid breathing in vapour.
Spillage & Disposal	Spillage is slippery. Confine spill, wear gloves, stop leak at source if possible. Pump liquid back into original container. Absorb remaining liquid with inert material such as dry sand or sawdust. Neutralize if necessary with vinegar or other diluted acid solution.

<u>FIRST AID</u>	
Eyes	Rinse eyes with copious amount of water for at least 15 minutes. If irritation persists, seek medical advice.
Skin	Flush with large amount of water, use soap if available. Remove grossly contaminated clothing, including shoes and laundry before reuse. Seek medical attention if necessary.
If Inhaled	If overcome or affected, immediately evacuate victim from exposure area, using proper respiratory protection. Administer artificial respiration if breathing has stopped. Keep at rest. Seek prompt medical attention.
If swallowed	Rinse mouth; then drink 1 or 2 large glasses of water. Do not induce vomiting. Get prompt medical attention. Never give anything via mouth to an unconscious person.
<u>HANDLING</u>	
Storage & Transportation	Product should be stored and transported in original containers. Do not store near heat, sparks, flame or strong oxidizers. Store away from strong acids and foodstuff. Keep container lid tightly closed. Store in a cool dry area, away from direct sunlight. Open container slowly to control possible pressure release.
Packaging	Supplied in 25 and 200 litres non-returnable containers.
