

DISINFECTANT

- * **SAFE TO USE**
- * **ACTIVE AGAINST GERMS, BACTERIA, MOLDS ETC**
- * **DEODORISER – LEAVES WITH FRESH CLEAN SMELL**
- * **EXTREMELY FAST ACTING**
- * **ECONOMICAL**
- * **BIODEGRADABLE**
- * **STABLE**

A-318 is tested and passed the Kelsey Sykes Capacity Test, conducted by Singapore General Hospital.

A-318 is effective against Escherichia Coli, Pseudomonas Aeruginose, Proteus Vulgaris, Staphylococcus Aureus ... etc

DESCRIPTION

A-318 is a clear liquid containing Quaternary Ammonium compound, blended with a biodegradable nonionic surfactant. **A-318** is specially designed to kill a wide spectrum of germs, bacteria, molds and viruses, as well as an effective deodorizer.

A-318 readily dissolves in water to form a wide spectrum sanitizing solution which is active against micro-organisms, as well as molds, fungi, algae etc.

A-318 is suitable for general application in hospitals and clinics, offices, homes, hotels, all public places and washrooms. **A-318** is safe for use on stainless steel, copper, glass, porcelain, enamel or floor surfaces, and most plastics. **A-318** is an excellent disinfectant and deodorizer for instruments, floors, walls, swimming pools, toilets, shower rooms, offices etc.

APPLICATION

A-318 can be used in the following:-

1. Hospitals and Clinics
2. Hotels and Country Clubs
3. Offices/Commercial Buildings/Residential Buildings/Industrial Buildings
4. Washrooms
5. All public places
6. Automobiles/Gargages etc

DIRECTIONS FOR USE

A-318 may be applied by either mopping, brushing, soaking, circulating or spraying. For general sanitizing purpose, it is recommended to use 1 part of **A-318** with 25 to 80 parts of water. Brush the entire surface to remove soil and films. Rinse with fresh water.

CAUTION

Do not spray onto eyes or skin. In case of eye contact, rinse eyes with water for at least 15 minutes. Seek medical advice if irritation persists.

SAFETY AND HANDLING INFORMATION

Protective Measures	Wear chemical resistant gloves, safety goggles and footwear. Use in adequately ventilated areas. Wash hands with water after use. Avoid breathing in vapour.
Spillage & Disposal	Spillage is slippery. Wear gloves, confine spill and stop leak at source if possible. Pump liquid back into original container. Absorb remaining liquid with inert material such as dry sand or sawdust. Neutralize if necessary with vinegar or other diluted acid solution.
<u>FIRST AID</u> Eyes	Rinse eyes with copious amount of water for at least 15 minutes. If irritation persists, seek medical advice.
Skin	Flush with large amount of water, use soap if available. Remove grossly contaminated clothing, including shoes and laundry before reuse. Seek medical attention if necessary.
If Inhaled	If overcome or affected, immediately evacuate victim from exposure area, using proper respiratory protection. Administer artificial respiration if breathing has stopped. Keep at rest. Seek prompt medical attention.
If swallowed	Rinse mouth; then drink 1 or 2 large glasses of water. Do not induce vomiting. Seek prompt medical attention. Never give anything via mouth to an unconscious person.
<u>HANDLING</u> Storage & Transportation	Product should be stored and transported in original containers. Do not store near heat, sparks, flame or strong oxidizers. Store away from strong acids or foodstuff. Keep container lid tightly closed. Store in a cool and dry area, away from direct sunlight. Open container slowly to control possible pressure release.
Packaging	Supplied in 25 and 200 litres non-returnable containers.
